

Introducing the CODEX new generation: A New Era of Parking Solutions

The CODEX new generation range is a natural evolution, designed to meet today's demands while anticipating tomorrow's needs. Robust, cost-effective, and stylish, it incorporates Orbility's commitment to delivering cutting-edge solutions that drive mobility and innovation forward.

Key Features & Benefits

Future-Proof Investment:

- Designed to meet the demands of tomorrow, it adapts seamlessly to technological advancements and market trends, ensuring long-term value.

Improved Brand Visibility:

- With customizable display options for advertisements or messages, it helps operators boost their brand presence and connect with users in new ways.

Cost-Effective Efficiency:

- A modular structure and compact design reduce production, maintenance, and operational costs without sacrificing performance.

User-Centric Approach:

- Built with ergonomics and usability in mind, it elevates the user experience, ensuring ease of use for both operators and end-users.

Enhanced Aesthetics:

- A sleek and modern look inspired by urban furniture enhances the overall image of any site, combining style with functionality.

Non Contractual

Technical Features & Innovations

Adjustable display:

- Standard 10-inch screen, optional 18-inch portrait format.
- Resistant to high temperatures, with anti-glare, UV, and infrared treatments.

Compact & functional design:

- Reduced width (800 mm) for better integration in tight spaces.
- Fully touch-operated for enhanced user experience.

Modular structure:

- Single casing for terminals and payment stations to lower costs and simplify maintenance.
- Robust metal front panel for durability in high-traffic environments.

Advanced software:

- Modern programming languages for optimized ergonomics.
- Quick adaptability to evolving needs.

Customization options:

- 18-inch displays for personalized messages or advertisements.
- Enhance user experience and boost brand communication.

Options

- Mifare® contactless reader for the renewal of subscriptions.
- 700W (including 400W for the heater).
- Color options on housing according to standard RAL panel.
- Integrated bidirectional video over IP.
- Intercom board.
- Thermostatically controlled heater with fan.
