

Orbility® Multipark

Reflex VA 110 Validator

Used in shopping centres, the VA 110 Validator allows shop owners and car park operators to offer parking discounts by encoding a cheque number on the magnetic stripe of the ticket. Three types of discounts are possible.

This equipment is part of the Orbility® Multipark system.

**Features**

- Coding of a discount value on the magnetic stripe.
- Choice between 4 discount values by pressing one of the function key of the validator.
- Each function key corresponds to a discount value configured in the Orbility® Multipark System.
- Up to 999 discounts can be configured and can be used by up to 255 issuers (shops).

Internal Components

- Encoding/reading of centred magnetic track allowing two way ticket insertion.
- 2 x 16 characters alphanumeric screen.
- 5 function keys.
- Flash EPROM.
- Maintenance and usage counter.

Technical Features

- Overall dimensions (height x width x depth): 104 x 108 x 201 mm.
- Power supply: 220V DC / 60 W max.
- Operating temperature range: 0° C to +50° C.
